About Me

Motivated and enthusiastic Cloud & Java Developer Fresher with hands-on experience in AWS cloud services, Linux administration, networking, and Java programming. Skilled in deploying scalable cloud infrastructure, configuring monitoring solutions, and working with database connectivity. Seeking an opportunity to contribute technical skills and grow in a challenging IT environment.

Technical Skills

Cloud and Aws

- EC2 • VPC • IAM • RDS • S3
- Load Balancer
- Auto Scaling • CloudWatch • SNS
- Route Tables • NAT Gateway
- Security Groups

Programming Skills

- Java
- Python

Web and Database

- MySQL
- HTML, CSS
- Nginx Web Server

7/4 L2A , Akshya gardern,
Nayakkanur, Veerapandi pirivu,
Coimbatore-641019.

Education

- B.Tech INFORMATION TECHNOLOGY 2021-2025
Sri Krishna College of Engineering and Technology
Coimbatore
- Higher Secondary 2019 - 2021
Sai Vidhya Nikethan Matriculation Higher Secondary
School
Coimbatore

Projects

- 1. *Adaptive Load Balancing (Final Year Project)*
 - Designed a dynamic traffic routing system
 - Improved application performance and reduced latency
 - Implemented using cloud-based architecture
- 2. *Cloud Infrastructure Deployment on AWS*
 - Designed and deployed a highly available web application using AWS services.
 - Created a VPC with public and private subnets, configured route tables, Internet Gateway, and NAT Gateway.
 - Launched EC2 instances and configured Security Groups for secure access.
 - Used Application Load Balancer to distribute traffic across multiple instances.
 - Implemented Auto Scaling to handle varying loads efficiently.
 - Stored static assets and backups in Amazon S3.
 - Monitored system performance and set alarms using Amazon CloudWatch and SNS notifications.

Internship

CodSoft | Virtual Internship

- Developed a Number Guessing Game and Student Grade Calculator using Java, implementing user input handling, control statements, and loops.
- Designed an ATM Interface System applying object-oriented programming concepts such as classes and methods.
- Strengthened knowledge in Core Java, including conditionals, loops, arrays, and OOP principles.
- Enhanced debugging, logical thinking, and problem-solving skills while working in a virtual internship environment and meeting deadlines.

Achievement

- AWS Academy Graduate-AWS Academy Cloud Foundation
- Enhancing Soft Skills and Personality - npTEL certification
- Ethics in Engineering practice -npTEL certification
