About Me

Enthusiastic Computer Science student with strong foundation in Cloud Computing, Python, and Java. Passionate about DevOps, AWS, Linux and automation. Focused on building scalable and high-performance systems.

Skills

- Cloud Computing
- Java Programming
- Python Programming
- MySQL

Languages known

- English
- Tamil
- Hindi (Read, Write)

Education

- B.Tech INFORMATION TECHNOLOGY 2021-2025
Sri Krishna College of Engineering and Technology
Coimbatore
- Higher Secondary 2019 - 2021
Sai Vidhya Nikethan Matriculation Higher Secondary
School
Coimbatore

Projects

- 1. *Adaptive Load Balancing (Final Year Project)*
 - Designed a dynamic traffic routing system
 - Improved application performance and reduced latency
 - Implemented using cloud-based architecture
- 2. *Agriculture Loan Management System*
 - Built with React.js for a user-friendly UI for farmers and admins.
 - Enabled loan application, review, and management on the cloud.
- 3. *Fitness Training Management System*
 - React.js frontend to track workouts and set goals.
 - Java backend with MySQL for secure profile and fitness data management.

Internship

CodSoft | Virtual Internship

- Developed a Number Guessing Game and Student Grade Calculator using Java, implementing user input handling, control statements, and loops.
- Designed an ATM Interface System applying object-oriented programming concepts such as classes and methods.
- Strengthened knowledge in Core Java, including conditionals, loops, arrays, and OOP principles.
- Enhanced debugging, logical thinking, and problem-solving skills while working in a virtual internship environment and meeting deadlines.

Achievement

- AWS Academy Graduate-AWS Academy Cloud Foundation
- Enhancing Soft Skills and Personality - nptel certification
- Ethics in Engineering practice -nptel certification
